OneSight is an independent nonprofit and registered 501 (c)(3) committed to empowering others through clear sight, and achieving a world where access to vision care is no longer a barrier to human achievement and potential.

Through our work providing access to quality vision care and eyewear in underserved communities worldwide, we help fuel people’s potential by helping them see clearly.

Since 1988, OneSight has partnered with local health organizations, governments, school districts, industry leaders, doctors and volunteers to help more than 10 million people in 53 countries.
EXTENDING OUR IMPACT

Looking back at 2019, I feel tremendous pride about what we were able to accomplish as an organization. It was a year of extending the impact we have made in places all over the world, building on successful programming initiatives, and branching out to serve people in new countries and areas where there was previously no access at all. We hit several key milestones and continued to develop and confirm pivotal strategies that position us to make even greater impact in the future.

As a result, I’m more confident than ever that OneSight will play a key role in helping to create a world where access to vision care is no longer a barrier to human achievement and potential. We are grateful for the support of our many partners and invite you to visit us online at www.onesight.org to explore ways to get even more involved.

Colombia
Peru
Jordan
Tanzania
Cambodia
China
India
Indonesia
Mongolia
Nepal
Thailand
Australia
New Zealand
CHARITABLE PROGRAMMING

OneSight held 42 local, regional, and global clinics that provided free vision care for those in need across 5 continents including Africa, South America, Southeast Asia, Australia, and North America.

**Jordan**

In partnership with the Jordanian Ministry of Health and Princess Alia’s Foundation, 2019 saw OneSight’s first clinic in the Middle East, extending our work with refugees to serve those fleeing conflict in Syria, Palestine and Iraq as well as those in need in the local community of Al Mafraq.

**Amazon**

Continuing programming started in 2018, OneSight returned to the Amazon River Basin in Brazil to serve indigenous and riverside populations in Vila Amazonia and Parintins. In addition to eye exams and glasses, we were able to extend our service offerings via a partner who performed surgeries to correct Pterygium.

**Thailand**

2019 was also an opportunity to continue our three year program to help displaced people and migrant workers along the Myanmar border in Thailand in partnership with the IRC, the Mae Tao Clinic, and Top Charoen.

**Australia & New Zealand**

For the third year in a row, OneSight served more than 10,000 people in need, bringing life changing opportunities to beneficiaries across states & territories in Australia & New Zealand—including those struggling against the effects of remoteness, homelessness, drug and alcohol addiction, and refugee displacement.

**South Africa**

In South Africa, OneSight expanded our long-term, sustainable programming in South Africa with the opening of our second vision center—Galeshewe Day Hospital Vision Center—in Kimberley, Northern Cape in November 2019.

**Native American Engagement**

For more than 20 years, OneSight has partnered with Walking Shield to provide vision care to Native Americans. In 2019, we continued that partnership with free vision clinics serving more than 3,800 people in Browning, MT, and Yreka, CA.

**10 Years of Partnership in Kansas City**

In 2009, Fidelity Security Life Insurance came to OneSight wanting to provide local school children with eye exams and glasses in Kansas City, MO. They have maintained that commitment every year since, and together we celebrated 10 years of helping students see clearly.
Gambia Transition

In 2013, OneSight began a pilot program in The Gambia which was the foundation for our sustainable approach to vision care. By 2018, 7 vision centers were up and running, providing access to the entire country of 1.8 million people.

And in 2019, full operation was transitioned to the Ministry of Health, with OneSight acting in a consultative role moving forward. This is a milestone moment as we see the vision centers we helped to establish truly running in a sustainable fashion through the leadership of local talent.
2019 ANNUAL REPORT
BY THE NUMBERS

REVENUES
In-Kind Contributions $ 1,725,692
Individual Giving $ 6,997,321
Corporate Giving/
  Sponsorship Income $ 9,563,842
Special Events $ 428,022
Grants $ 44,952

NET ASSETS YEAR-END
Without Donor Restrictions $ 25,585,834
With Donor Restrictions $ 50,000
Total Net Assets $ 25,635,834

* In 2018, OneSight deliberately slowed the expansion of sustainable vision centers in order to focus on deeper training of, and skill transition to our governmental partners. Expansion of vision centers has resumed in 2019 in conjunction with a simultaneous approach to training and skill transitioning. This has resulted in a correspondingly higher proportion of spending in programming.
OneSight’s work would not be possible without the generous support of our donors. We are proud and thankful to have them as allies in building a world where everyone has the opportunity to see clearly.

Thanks to generous annual operating support from Luxottica, corporate and individual donations to OneSight directly fund our programming to help millions in need receive access to high quality vision care and eyewear.
